

# Job Vacancy – Student Assistant (HiWi)

TECHNISCHE  
UNIVERSITÄT  
DARMSTADT

---

## for the design of scientific texts and graphics

---

For the design of a scientific book in the field of vehicle dynamics control we are looking for a student assistant. For the duration of the book production a longer-term activity is desired.

### Job description:

- Implementation of handwritten texts in LaTeX
- Creation and integration of graphics

The time required is 82 hours/month and can be divided flexibly. The duration of the employment should be at least 6 months.

### Requirements:

- Good knowledge and experience in dealing with LaTeX
- Proficiency in using vector graphics software such as CorelDraw, Adobe Illustrator, PGF / TikZ, etc.
- High level of commitment, reliability and communication skills
- Independent and structured way of working
- Good command in English
